

## New Caledonia where to buy solar panels near me

As of Dec 2024, the average cost of solar panels in New York is \$2.86 per watt making a typical 6000 watt (6 kW) solar system \$12,029 after claiming the 30% federal solar tax credit now available. This is lower than the average price of residential solar power systems across the United States which is currently \$3.00 per watt .

The cost of a solar panel installation varies by location, property type, and, of course, the panels used for the installation. Premium solar panel products with high efficiencies and advantageous warranties usually cost more money upfront but can offer higher potential long-term savings.
