

New Energy Storage Business Training Content

What are energy storage courses?

Courses cover the energy storage landscape (trends, types and applications), essential elements (components, sizing), technical and project risks, and the energy storage market. Additionally, we can provide combined courses covering wind, solar and/or grid-connection as well.

What are DNV training courses on energy storage (systems)?

DNV training courses on energy storage (systems) will increase your understanding of the technical, market and financial aspects of grid-connected energy storage, as well as the associated risks.

Who should take the energy storage course?

This course is intended for project developers, insurers and lenders interested in, or working with, energy storage. Policy makers, utilities, EPC contractors and other professionals will also benefit from DNV's world-renowned technical and commercial knowledge of energy storage. An elementary knowledge of electricity and/or physics is recommended.

Is energy storage a good course?

Summarily, the concepts taught are fully applicable in energy industries currently, and the learning experience has been truly worthwhile. Indeed this course stands tall in the delivery of excellent knowledge on energy storage systems. Need Help?

What can I learn from DNV's Energy Storage Essentials course?

DNV will provide you with examples and present our view on best practices for energy storage using our industry supported GRIDSTOR methodology. On completing DNV's energy storage essentials course, you will be able to identify opportunities and risks for grid-connected energy storage in your business.

Is energy storage a good investment for your business?

With the grid-connected energy storage market maturing and commercial projects starting up, companies in different sectors are increasingly interested in the potential of energy storage for their business. But insight into technical, market and financial aspects is essential to realizing that potential.

NICEIC has launched an all-new Electrical Energy Storage Systems training course. NICEIC has launched an all-new Electrical Energy Storage Systems training course. Join us [Homepage](#). ...
