

New Energy Storage Terminal Company

How many Zenith Energy terminals are there?

Zenith owns and operates 7 terminals across 5 states, each equipped to specialize in a unique type of liquid storage, providing for the diverse needs of our over 80 customers. Zenith Energy Terminals offers bulk liquid storage across North America, Europe and Latin America.

Who is Ges energy storage?

Independent energy storage company GES develops and operates first-class energy storage assets facilitating energy transition.

How do we store and process energy products?

We safely and sustainably store, blend and process energy products to required specifications at our 16-energy storage and processing terminals, that provide 10.3 million cubic meters of storage capacity. We then facilitate the offloading and onloading of these products to ships, trains, trucks and pipelines at key crossroads of trade.
