

What is Jamaica's energy source?

Most of Jamaica's energy is generated from liquefied natural gas and oil, which make up 88 per cent of the energy grid. Renewables account for the other 12 per cent. "This 12 per cent can be further divided into wind power at 6.0 per cent, solar power at 3.0 per cent, and hydro power at 3.0 per cent," stated GPE.

Will Jamaica get 100 mw of renewable power?

The Jamaican Government received 42 submissions from companies interested in their call to procure 100 MW of renewable power. Source: BN Americas Jamaica has released its first electric vehicle policy, with the goal of increasing energy security, diversifying supply, and decarbonizing.

Is Paradise Park the cheapest electricity in Jamaica?

Paradise Park now delivers to Jamaica's national utility, the Jamaica Public Service Company Limited, the cheapest electrical energy ever produced in Jamaica - with a base tariff of USD 85/MWh - through a 20-year power purchase agreement.

What does Jamaica's energy procurement mean for the future?

"This procurement signifies a step toward a cleaner and more sustainable energy future for Jamaica," GPE said in the tender document. The 100MW to be supplied would grow renewables from 187MW or 12 per cent of Jamaica's total electricity grid to 287MW or about one-third of the grid.

Will NFE impact Jamaica's energy consumption and fuel sources?

There can be no assurance that these internal estimates are correct or in line with Jamaica's plans for energy consumption and fuel sources in the future. There can be no assurance that NFE would have a positive, similar, or any impact on the energy consumption and fuel sources used in any other jurisdiction in which it operates.

Does Jamaica have nuclear energy?

Nuclear energy is not new to Jamaica. The country's first nuclear research reactor, SLOWPOKE-2, a pool type reactor designed by Atomic Energy of Canada, was installed at The University of the West Indies (UWI) Mona campus back in 1984 and has been used in research in several areas. It is the Caribbean's first and only nuclear reactor.
