

Nicaragua tyva energie

Who is Tyva energy?

Our assembly capabilities, located in France within an ISO 9001 certified facility, enable us to meet high production volumes. TYVA Energie is a French manufacturer of lithium batteries since 2013. We develop sustainable and modular batteries solutions to answer specific or high efficiency energetic needs.

What can Tyva energy do for You?

Besides building our own sustainable and modular lithium batteries' solutions, TYVA Energie internally develops various technologies for your applications, whether solutions directly integrated into your systems or additional features we place at your disposal.

Why does Tyva energy develop its own electronic cards?

Since it allows control and ensure lithium batteries' safety, it seems essential for us to fit all of our ranges with smart and performing BMS. That is why TYVA Energie develops its own electronic cards designed and configured entirely by our Engineers.

TYVA Energie's lithium batteries have quite a few components and technologies enabling their protection against any internal or external risks, including a battery management system (BMS). To go further with the safety of our products, we ...

TYVA Energie participated in the 2022 edition of the Euronaval exhibition in Paris Le Bourget. For this occasion, we interviewed Rami Lecomte, Sales Manager Divers & Special Forces de la ...

The lithium battery of TYVA Energie has allowed us to improve our performances and to gain in efficiency since we reached 100 km of autonomy in city, and 70 to 80 km with a more powerful motor. Moreover, if we have the ...

TYVA Energie interviewed Pascal Guerrin, General Manager of the production company Bonne Pioche who is also intervening on the set of the next film of the director ...

TYVA Energie is a French manufacturer of lithium batteries since 2013. We develop sustainable and modular batteries solutions to answer specific or high efficiency energetic needs. From the creation of our own batteries ...

TYVA Energie is now implanted in Annonay, in the Ardèche county of France, in the heart of Auvergne-Rhône-Alpes region. It is located at the crossroad of Lyon, Valence, Grenoble and ...

En 2013, TYVA Energie développe la batterie lithium Moduloo 3D. Conçue dans un format léger et pratique, elle offre la possibilité d'assembler plusieurs batteries entre elles dans les 3 dimensions, en connectant les modules en série et en ...

TYVA Energie a mis au point la solution TYVA Pyro Protection (TPP), élaborée par nos Ingénieurs pour empêcher la propagation du feu dans nos batteries. Grâce à l'ajout de notre technologie dans nos modules, les cellules sont isolées les unes des autres en cas de surchauffe de la batterie, évitant ainsi la propagation du feu et ...

Furthermore, TYVA Energie offers the lightest and most compact lithium batteries on the market with an outstanding energy density of 245 Wh/kg only. It allows you to gain autonomy while ...

La batterie lithium de TYVA Energie nous a permis d'améliorer nos performances et de gagner en efficience puisqu'on atteint les 100 km d'autonomie en ville, et les 70 à 80 km avec une ...

Le Made in France by TYVA Energie. TYVA Energie voit le jour en 2013 lorsque Thierry CLAUDEL crée le premier prototype de batterie lithium 3D dans son garage en Ardèche. Quelques années plus tard, l'entreprise ardéchoise ne cesse de se développer avec comme point d'orgue la construction d'un tout nouveau bâtiment éco-responsable qui a vu le jour récemment.

TYVA Energie is more than just a lithium batteries manufacturer, we also provide a large range of benefits to cover all of your needs and assure you personalized complete services.. We have the desire to anticipate your expectations and offer you custom services adapted to your products and application fields. We stay at your disposal to follow your projects" development and to advise ...

La gamme Moduloo Ex est constituée de stations électriques portables ergonomiques, pour procurer puissance et autonomie aux applications professionnelles nécessitant une source d"énergie externe.Présentée sous la forme de solutions robustes et étanches, elle se décline sous deux versions de produits : PowerBox et PowerCase.. Les produits de la gamme Moduloo Ex ...

It is a robust solution presented as a waterproof aluminium casing fitted with TYVA Energie"s lithium batteries. It is declined into 2 products with the same ergonomic format but different power levels: the 5 kWh version and the 11 kWh version, both adapted to answer specific uses requiring important embedded energy sources.

TYVA Refill Reconditionnement des batteries; Batteries compactes et modulaires; TYVA Pyro Protection La solution anti-feu des batteries lithium; TYVA Smart Dashboard Application de ...

Dès 2013, TYVA Energie a conçu des batteries qui se distinguent par leur compacité et

Nicaragua tyva energie

leur intégration facilitée dans n"importe quel type de support nouveau ou existant. Pour cela, nous ...
