Is Puerto Rico a leader in solar energy adoption?

Puerto Rico is recognized as a leader in solar energy adoption, driven by the ambitious goals outlined in the Puerto Rico Energy Public Policy Act (Act 17-2019) and the U.S. Department's significant investments under the Inflation Reduction Act since its enactment.

Where will solar panels be made in Puerto Rico?

Aguadilla, Puerto Rico - Great Lakes Solx PR, LLC ("Solx"), a minority-owned solar panel manufacturing company, has announced plans to establish the first solar panel manufacturing facility in Puerto Rico. The company will operate from the 65-acre Hewlett Packard (HP) Campus in Aguadilla, with commercial operations expected to begin in April 2025.

How much money does Puerto Rico have to pay for solar?

Up to \$190 million is available to Puerto Rico's Housing Administration and a private company to pay for solar and battery installations in public housing common areas and subsidized, multifamily housing properties. Another \$175 million is available for certain healthcare and dialysis centers.

Why should Puerto Rico invest in solar panels?

These positions will enable Puerto Ricans to participate in the fast-growing renewable energy industry, offering long-term economic stability. The Governor of Puerto Rico, Pedro Pierluisi, welcomed the project and stated: "Puerto Rico offers an ideal location and talent pool for solar panel manufacturing."

How can Puerto Rico meet its energy goals?

The federal study is expected to be completed by the end of this year. Four different scenarios have been modeled to meet Puerto Rico's targets -- all include more rooftop solar combined with battery storage. First is a focus on installing distributed energy on buildings where owners could then get the financial benefits of generating electricity.

What does Solx do in Puerto Rico?

With operations based in Aguadilla, Puerto Rico, Solx is dedicated to supporting the island's renewable energy goals and providing high-quality solar panels to local and U.S. markets. Solx to open Puerto Rico's first solar panel facility in Aguadilla by April 2025, creating 250 jobs and supporting renewable energy goals.
