Will Canada's largest battery-storage facility be built in Norfolk County?

One of the developers building Canada's largest battery-storage facility in Haldimand County wants to bring a smaller project to Norfolk County within five years. NRStor Inc. is a partner in the Oneida Energy Storage project announced in February, which when completed by 2025 will store 250 megawatts of electricity on four hectares outside Jarvis.

Could a 500MW solar project be built in South Norfolk?

Island Green Power is seeking public opinions on provisional plans for a nationally significant solar and storage project in South Norfolk. The renewable energy developer has launched public consultation on early-stage proposals for a 500MW solar development co-located with a battery energy storage system (BESS) that could have up to 500MW output.

What is NRStor doing in Norfolk?

At Wednesday's Norfolk council meeting, NRStor pitched a lithium-ion battery-storage facility on the outskirts of Simcoe that would store 100 megawatts of energy and supply 400 megawatt hours to the grid. "It's a significant infrastructure project," said vice-president of operations Scott Matthews.

Is Norfolk Island a 'duck curve'?

Energy experts often point to so-called "duck curves" in the California market and in Queensland, due to the growth of solar, but Norfolk Island is well ahead - in fact, it is already dealing with the excess of solar output over demand that is predicted for South Australia, Western Australia and Tasmania in the next 10 years.

Norfolk Island in the Pacific Ocean is located close to New Zealand, but it is a territory of Australia. The island is one of the popular tourist destinations that is frequented by visitors from across the world. If you intend to travel to Norfolk Island, then you need to know all about the island.
