

What is North Macedonia's just energy transition investment platform?

North Macedonia today launched a just energy transition investment platform to guide its far-reaching plans for a low-carbon and just transition of the electricity sector.

Did North Macedonia change its energy regulations?

There were no major energy legislative changes, but North Macedonia continued to harmonize its energy regulations with the EU Energy Community's Third Energy Package (TEP). North Macedonia's state-owned power company was unbundled and partially privatized in the early 2000s.

Is North Macedonia a state-owned power company?

North Macedonia's state-owned power company was unbundled and partially privatized in the early 2000s. Austrian utility company EVN has been responsible for electricity distribution in North Macedonia since entering the market in 2006.

Will Macedonia re-open a dormant oil pipeline?

The pipeline and refinery have only been used for storage since 2013. The governments of North Macedonia and Greece are discussing re-opening the dormant oil pipeline.

How much will ESM invest in North Macedonia?

Final bids are expected in the second half of 2022. The investment is estimated at \$640 million and will be crucial for balancing the electricity system. ESM owns and operates North Macedonia's only wind farm, a 36.5 MW park in the southern part of the country. It plans to increase capacity with two separate 14 MW investments in the same area.

The ministry has also prepared a draft law on energy efficiency. By the end of 2019, North Macedonia will adopt the new Energy Development Strategy until 2040, which will be based on the five pillars of the EU Energy ...

On December 2, 2020, on the 5 th sitting of the 2 nd regular session, the National Assembly of the Republic of Serbia has adopted the 2021 Financial Plan of the Energy Agency of the Republic of Serbia (AERS). The Council of the Energy Agency of the Republic of Serbia adopted the 2021 AERS Financial Plan on the 117 th session held on October 29 ...

In September 2024, total electricity consumption in North Macedonia amounted to 389,954 MWh. Natural gas consumption was recorded at 30.68 million cubic meters, coal consumption reached 234,251 tons, and petroleum products consumption stood at 110,437 tons.

North Macedonia aers home energy storage

Lignitorichia Achladas SA, lessee of the Achlada lignite mine in Greece's north, has not taken any unlawful action through its export activity to neighboring North Macedonia, as a contract extension granted last year obliges the company to maintain lignite production at a minimum of 750,000 tons per year - unless prevented by unforeseen events beyond its control ...

AES Nevada is developing a 50MW GravityLine TM merchant energy storage facility on approximately 20 acres at Gamebird Pit, a working gravel mine in Pahrump, Nevada. This project will employ a fleet of 210 mass cars, weighing a combined 75,000 tons, operating on a closed set of 10 multi-rail tracks.

AES storage station is a smart, grid-independent, energy storage solution for your home. Using an integrated control system with adaptive logic, energy flow can be controlled and optimized, maximizing the energy self-sufficiency of your home while storing energy produced by solar panels. A solar plant delivers electricity right where it is needed.

In August 2024, North Macedonia's total electricity consumption reached 414,178 MWh, with natural gas consumption at 33.04 million cubic meters, coal consumption at 320,639 tons, and petroleum products at 101,862 tons. According to the State Statistical Office, domestic production met 100% of electricity needs during the month, with 99.9% of coal used ...

SKOPJE, March 20, 2024 - North Macedonia has secured USD 85 million for its transition away from coal from Climate Investment Funds (CIF), the lender announced on Wednesday. The country aims to fully phase out coal by 2030. The investment plan was developed by the North Macedonian government and approved by CIF.
