

Northwest Photovoltaic Panel Works

Do solar panels work in the Pacific Northwest?

Regions like the Pacific Northwest, which are known for getting less sunlight, still get nearly as many hours of sunlight year-round*. This is what actually matters for solar panels. The first silicon solar panel, effective as an energy source, was created by Bell Labs in 1954 with an efficiency of just six percent.

Who is Premier Solar NW?

At Premier Solar NW, we take pride in having a team of friendly, experienced, and professional staff who are all local to Oregon and Washington. Our team members are passionate about solar energy and have the expertise to design and install solar solutions that meet our clients' unique needs.

Should I hire Premier Solar NW?

Highly recommended PSNW. HIRE THEM. I've worked with hundreds of contractors across the country and Premier Solar NW is one of the best. They are professional, friendly, communicative, helpful, fast, hard-working, and competitively priced. At each step of the way they exceeded my expectations. You should hire them.
