Does Norway have a battery market?

Today Norway has not one, but two huge battery markets. "There are two market drivers for batteries: EVs and stationary energy storage. Energy storage is coming on strong now. It's the key to turning intermittent wind and solar into a stable energy source," explains P&#229;l Runde, Head of Battery Norway.

Is Norway a good place to buy EV batteries?

An early adopter of electric transport, Norway continues to capture EV battery headlines. Electric cars now account for 79 per cent of new cars sold in Norway, and the MS Medstraum was recently launched as the world's first electric fast ferry. In a global report on lithium-ion batteries, Norway ranked first in sustainability.

Are battery cell Gigafactories coming to Norway?

Several companies are currently planning to build battery cell Gigafactories in Norway. Although the emerging industry is promising new 'green' economic growth for the oil-dependent country, it is reliant on lithium and other raw materials that are extracted elsewhere.

How big is Norway's battery market?

batteries for stationary energy storage - a market expected to reach EUR 57 billion by 2030. Now, a more mature Norwegian battery industry has greater potential to accelerate the renewable energy transition in Europe. Today Norway has not one, but two huge battery markets.

What is battery Norway?

Battery Norway (Norwegian Battery Platform) is a national industrial collaboration platform focused on innovation and sustainable value creation opportunities, encompassing the entire battery supply chain. It will closely follow the EU's battery strategy and act as an advisor to the authorities. Battery Norway aims to help to:

How can Norway become a leader in sustainable batteries?

Investing in research, local manufacturing and secure access to materials is needed to solidify Norway's position as a leader in sustainable batteries. Battery technology is essential to meet Europe and Norway's zero emission targets by 2050, helping to reduce carbon emissions in the energy and transport sectors across the continent.
