

NuGen Systems has developed advanced Lithium ion rechargeable battery solutions optimized to meet the power, energy, quality and safety requirements... .. Find out more about NuGen Systems, rechargeable batteries and Li-ion.

NuGen, a member of the Advanced Technology Development Center (ATDC) since the company was founded, worked with coach and manufacturing catalyst, Shane Matthews, to help build and test the idea, write a business plan, and access mentors and advisors in strategy, finance, and other areas of expertise.

NuGen Systems" NuGenerator 3000 is designed specifically as a green solution to replace mobile gas generators. Besides the quick charge and the high discharge current capability, the solution is simple, silent, easy to use, more reliable and requires no maintenance.

NuGen Systems also works with customers and provides its design and battery expertise to create easy, custom solutions using their modular, flexible designs to reduce costs and time to deploy unique configurable options for their customers.
