

This marks the first time in the Gambia's history where a utility scale solar plant of 23 Megawatts Solar PV capacity and 8-Megawatt hours battery storage is being commissioned. This solar plant allows NAWEC to finally shift away from expensive heavy fuel oil-based generation which is costly and harmful to the environment.

Over the past several years, multiple solar module manufacturers have shifted toward using original equipment manufacturers (OEMs) to make their modules (commonly called solar panels). The trend follows suit with manufacturers in many other industries from consumer electronics to apparel, who leverage the expertise of specialty manufacturers to maintain quality while the ...

OEM. Custom Made Solar Products OEM. OEM stands for Original Equipment Manufacturer which is commonly referred to as a company that manufactures and offers parts and accessories of items that are used as components of a product from another company. To sum it up, OEM commonly manufactures specific items on behalf of brands. Though OEM typically operates in ...
