

Solar & Storage Live London continues to grow in 2025 with over 200 global exhibitors showcasing innovative solar and energy storage solutions. More than 10,000 industry buyers will attend over the two days. It's the UK's most exciting solar and energy storage exhibition, offering everything the industry needs: thousands of solar and energy ...

Solar and Storage Live London will be followed by Zurich (17-18 September 2024), Birmingham (24-26 September) and Barcelona (November). Solar and Storage Live London will bring over 150 exhibitors, 250 speakers and 8000 attendees to the ExCel in April. Our free to attend exhibition and conference brings together all of the key players in the ...

Solar & Storage Live London 2025 will host over 200 exhibitors from across the globe, showcasing the most cost-effective and efficient solar and energy storage technologies and a wide range of complementary products to support the ...

Solar & Storage Live London launched in 2024 and was an overwhelming success, smashing targets with over 10,000 solar and storage professionals registered to attend. The fast-growing London show is now the perfect H1 complement to our flagship event in Birmingham, which takes place in H2 and now attracts over 15,000 attendees.

Since Oman revised its tariffs, we recommend installing a solar grid-connected system without battery storage - the simplest, most cost-effective way to use solar power. This system connects PV modules directly to the utility grid, ...

We're excited to announce the launch of Solar & Storage Live London, which will take place alongside our show in the NEC! Due to the increased demand, we decided it's time to create another forward-thinking, challenging and exciting renewable energy exhibition that celebrates the technologies at the forefront of the transition to a greener, smarter, more ...

The project is AIIB's first renewable energy financing project in Oman and the region. Another solar project, led by French developer EDF Renewables and its consortium partner Korea Western Power (KOWEPO), broke ground September 2023 for 500-megawatt solar photovoltaic power plant. Oman has embarked on several other projects in line with ...
