

One panel solar system Svalbard and Jan Mayen

Where are the world's northernmost solar panels installed?

Norway has installed the world's northernmost ground solar panels in its Svalbard archipelago, despite the region being plunged into darkness from early October until mid-February every year. Norway has installed the world's northernmost ground solar panels in its Svalbard archipelago, a region plunged in round-the-clock darkness all winter.

Why do solar panels work in Isfjord Radio?

The solar panels also benefit from the "albedo" effect, the reflective power of snow and ice, as well as low temperatures that improve their efficiency. On the flipside, the region is plunged into total darkness from early October until mid-February, which makes it impossible for Isfjord Radio to completely give up fossil fuels.

Are Longyearbyen and Svalbard facing an energy transition?

Top image: Longyearbyen and Svalbard are facing an energy transition. This is the background for the cooperation agreement between UNIS, Store Norske and SINTEF. Photo: Graham Gilbert/UNIS. Longyearbyen and Svalbard are facing a huge energy transition.

Is this the world's northernmost ground-mounted PV system?

"It's what we believe to be the world's northernmost ground-mounted PV (photovoltaic) system," Mons Ole Sellevold, renewable energies technical adviser at state-owned energy group Store Norske, told AFP. "It's the first time anyone has done it at this scale in the Arctic," he said, his rifle slung over his shoulder in case polar bears turn up.

we offer solar kits, solar panel charge controllers, mppt charge controllers, inverters, hybrid inverters, lithium battery, powerwall, battery charge controllers and solar panel connectors mounting wiring.
