

Optimera energy Thailand

Who is Optimera energy?

Optimera Energy is a consortium made up of Falcon Corporation Limited, FHN Gas Limited, and ND Western Midstream Limited (the "Consortium"). The Consortium has been formed in 2022 to play major part in Nigeria's energy transition with particular focus by developing and executing gas distribution.

What is Optimera Energy Consortium?

The Optimera Energy Consortium has been set up to take on this challenge in Nigeria and close the energy gap by developing and executing energy projects utilizing low-carbon resources such as Natural Gas. As environmental stewards, we are strongly committed to strict adherence to our Environment, Social and Governance policies.

Will Valeura acquire KrisEnergy Gulf of Thailand assets in Q2 2022?

Expected organisational and financial synergies with Valeura's acquisition of the KrisEnergy Gulf of Thailand assets as announced in Q2 2022. Unless otherwise noted, all production and reserves estimates in this announcement are presented on a working interest acquired basis, net to the SPV, which is controlled and 85% owned by Valeura.

Can accelerated deployment of renewables help achieve Thailand's climate targets?

How accelerated deployment of renewables can help achieve Thailand's climate targets Since the publication of its latest Power Development Plan (PDP) in 2020 (PDP 2018 Revision 1), Thailand has considerably increased its emissions reductions objectives, announcing a net zero greenhouse gas emissions target for 2065 and carbon neutrality for 2050.

Is biomass a source of electricity in Thailand?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Thailand: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.
