

What does a solar project mean for Serbia?

For Serbia, this project means more than just meeting renewable energy goals. It promises energy independence, economic stability, and a sustainable energy supply. By creating a network of self-balancing solar plants, Serbia strengthens its energy security, attracts green investments, and aligns with global environmental standards.

Where will solar power be installed in Serbia?

The Ministry of Mining and Energy and EPS (Elektroprivreda Srbije) partnered with Hyundai Engineering and UGT Renewables to drive this project. Serbia will soon see six large solar plants strategically positioned across the country. Key locations include Negotin, Zaječar, and Bošnjace.

How will solar energy impact Serbia?

The project's expected output is 1,600 GWh annually, meeting significant energy demands for households and industries alike. Currently, over 60% of Serbia's electricity comes from fossil fuels. Solar energy offers a practical, scalable solution for diversifying energy sources.

What is a 1 GW solar power project in Serbia?

1 GW Solar Power Project in Serbia, set to transform the country's renewable energy landscape and boost sustainability efforts.

Why does Serbia need a solar grid?

By creating a network of self-balancing solar plants, Serbia strengthens its energy security, attracts green investments, and aligns with global environmental standards. An interconnected grid also allows Serbia to better distribute energy, meeting future demands while maintaining grid stability.

How much electricity does Serbia get from fossil fuels?

Serbia currently gets more than 60% of its electricity from fossil fuels. The contract is the latest in a line of solar projects backed by Serbia's Ministry of Mining and Energy this year, which includes plans for a 1 GW solar panel factory and another 500 MW of solar.

BELGRADE, October 16, 2024 - The government of Serbia has signed a deal with a consortium of US player UTG Renewables and South Korea's Hyundai Engineering & Technology for the ...
