

Is Solara a green energy company in Armenia?

THIS IS NOW! Solar photovoltaic installation company SOLARA has adopted a strategy to carry out activities in the field of the green economy in Armenia and promote its development. Why Choose Solara? There is a great potential for solar energy in Armenia.

What are solar inverter cabinets?

Solar Inverter Cabinets are manufactured using best grade material and advanced technology. The assortment of inverter cabinets are appreciated for robust construction, superb finish and longer service life. The cabinets are available in smooth and shiny finish and effectively store inverter machine to guard it against dust and other impacts.

Can inverters be installed outside?

As a rule, inverters designed for outdoor use may be installed either outdoors or indoors, however indoor inverters can only be installed indoors. The great majority of grid-tied or string inverters available today are designed for outdoor installation.

Can a grid-tied inverter be installed outside?

Like most electronic devices, inverters operate more efficiently at cooler temperatures. While most grid-tied inverters are designed for outside installation, they should not be mounted in direct sunlight, as this will degrade their efficiency. In addition to the lost output, the lifetime of the unit is likely to be shortened.

Should inverters be shaded?

Thus, even inverters that incorporate robust outdoor packaging should be kept shaded, even if it means installing an awning over them. The ideal installation site for inverters is cool, dry, dust-free and indoors. However, there are a growing number of applications for which this is impractical or undesirable.
