

Problems in the last 24 hours in Palestine, Texas. The chart below shows the number of Oncor reports we have received in the last 24 hours from users in Palestine and surrounding areas. An outage is declared when the number of reports exceeds the baseline, represented by the red line.

A professor of ours once told the story of an instructor who, on the first day of a course on international politics, began by quoting Thucydides, from his History of the Peloponnesian War, that the strong do what they will and the weak suffer what they must. The instructor declared that this is international politics, then walked out of the room to signal there ...
