

Peru power battery backup

Should I buy a UPS battery backup in Peru?

If you're staying in Peru for a while and you want to use a desktop computer, buy a UPS battery backup (Uninterruptible Power Supply) so that you don't lose your work -- and potentially damage your computer -- when the power goes out.

Is there electricity in Peru?

The electrical supply in Peru is far from perfect, especially in smaller towns and cities (and there are still some rural settlements that have no electricity). Power outages are common, which is frustrating if you're using a laptop and downright depressing if you're using a desktop computer without a battery pack.

Where can I get a power outlet in Peru?

Hotels and Hostels: Most accommodations in Peru, from budget hostels to luxury hotels, provide power outlets compatible with Types A, B, and C plugs. Hotels catering to international guests may even provide universal power outlets, but having your own adapter is always a good backup.

How much does a ups cost in Peru?

You can buy a UPS in many computer stores in Peru for between S/100 and S/200 (about \$30 to \$60). Tony Dunnell is a freelance travel writer living in Peru since 2009.

What is the electrical voltage in Peru?

The voltage, electrical outlets and plugs in Peru all offer potential differences, none of which are difficult to get around if you want to use electrical appliances -- laptops, cameras, cellphones etc. -- bought in a different country. The electrical current in Peru is 220 volts with a standard frequency of 60 hertz.

What is the electrical current in Peru?

The electrical current in Peru is 220 volts with a standard frequency of 60 hertz. Before plugging anything in, you need to be sure that it can take 220 Volts, or you risk damaging your appliance. If you're coming from the USA, for example, you need to be careful, as the USA supplies electricity between 110 and 120 volts AC.
