

Photovoltaic inverter GoodWe agent

Who is goodwe solar inverter manufacturer?

No. 90 Zijin Rd., New District, Suzhou, 215011, China GoodWe is a leading solar inverter manufacturer specializing in residential and commercial solar inverters ranging from 0.7kW to 250kW.

Are goodwe solar inverters a good investment?

Being light-weight, highly-efficient and low-cost, GoodWe residential grid-tied solar inverters are designed to be simple to install, operate, and maintain, so as to ensure a quick return on investment (ROI). GoodWe's C&I grid-tied inverters are designed to deliver high efficiency and reliability.

Are goodwe inverters reliable?

Reliable GoodWe Quality Every single inverter will be tested on GoodWe self-developed ATS test platform to make sure they are 100% ready before delivery. After assembled, each inverter will simulate the normal work status in the aging room with 45°C for at least 8 hours, in order to make sure they are reliable in working in the hot weather.

What does goodwe do?

GoodWe delivers comprehensive solutions to meet customer demands for clean and cost-effective power. Our portfolio includes reliable inverters, energy storage batteries, EV charger, software, smart monitoring devices, and PV building materials, ensuring green and sustainable energy solutions.

Does goodwe have a standard antistatic plant?

The standard antistatic plant in GoodWe's new facility reduces the risk of damaging the key components by static from human bodies, guaranteeing the quality of the inverter manufactured. Copyright © GoodWe Power Supply Technology Co., Ltd. / GoodWe Europe GmbH 2020. All rights reserved.

Can a goodwe EV charger charge a PV system?

By pairing a PV system with a GoodWe EV charger, electric vehicles of any brand can be charged at home with abundant solar energy. GoodWe offers a range of smart monitoring devices, including smart dongles, smart meters, data loggers, and solar communication boxes.

The HT 1100 Vdc Series 73-120 kW is GoodWe's new string inverter for C&I and small utility projects to boost your power and profit. Generate your solar power and make use of it with this ...

The brand new XS model from GoodWe is an ultra-small residential solar inverter specifically designed to bring comfort and quiet operation as well as high efficiency to households. Its capacity ranges from 0.7kW to 3.0kW and its ...

The HT 1100 Vdc Series 73-120 kW is GoodWe's new string inverter for C&I and small utility projects to

boost your power and profit. Generate your solar power and make use of it with this centerpiece of the clean energy system. The HT ...

Residential inverter efficiency standards are generally 95 to 98 per cent, GoodWe inverters meet these standards. The least efficient GoodWe inverter is the NS Series 1kW which still records a 96.5% max efficiency. ...

The latest inverters added to the list in 2023 are the next-generation inverters from Sungrow, Fronius, Goodwe, Growatt, Solax and Sofar, plus the new DS3D and QT2 microinverters from APsystems, along with microinverters from ZJ ...

Table 1: Inverter model with load control. Conclusion. GoodWe inverters support the load control function. The homeowners can chose this function for main load controlling. In combination with local photovoltaic ...

GoodWe has launched an innovative three-phase 15-30kW hybrid inverter, an addition to its ET series portfolio. ... Safety standards for the inverter and PV system are ensured by Type II SPD on the ...

About GoodWe. GoodWe is a world-leading PV inverter manufacturer and smart energy solution provider listed on Shanghai Stock Exchange (Stock Code: 688390). GoodWe has more than 4,600 employees ...

In combination with local photovoltaic system, the main load can be operated in response to the availability of locally produced clean energy. As a result, homeowners can increase self-consumption and self-sufficiency, ...
