

How much does solar panel cleaning cost?

Solar panel cleaning costs between £4 - £15 per panel. The total solar panel cleaning cost will be affected by several factors, listed below. The biggest influence on price is whether your solar panels are on the ground floor or on upper floors. The higher the panels, the more expensive they will be to clean.

How often should you clean solar panels?

Experts recommend that you should clean your solar panels every 6 months. It is particularly important to have your panels cleaned if you notice that average energy production levels are dropping. What's involved in cleaning solar panels? The price of solar panel cleaning includes labour, materials and transport to your property.

How much does it cost to repair a solar panel?

If something does go wrong and your solar panels need fixing, repair costs will vary, depending on what the issue is. Small damages can cost around £80 to fix, whilst fully replacing a solar panel can cost over £1,000. There are also a few things, such as solar inverters, that may need replacing along the way.

How do I keep my solar panels clean?

Use specialist solar panel cleaning equipment. Investing in specially designed solar panel cleaning equipment can help prolong the life of your solar panels. A kit will typically include items such as biodegradable soap, a long-handled brush and a solar panel wiper.

How long does it take to clean solar panels?

The total time it takes to clean your solar panels depends on the location of your solar panels and how many need to be cleaned. Small, ground-floor set-ups can take around half an hour to clean. Larger solar panel banks or those mounted above the ground floor (on roofs, for example) can take between 1-2 hours to clean.
