If you have a question about your system or need maintenance, request service below!

Can solar panels be repaired?

Yes, solar panels can be repaired depending on the type of damage, but it's typically better to replace the damaged panels. Our Service Department can inspect your system to see whether the fix can happen on-site.

Can You pressure wash solar panels?

No, you should not pressure wash your solar panels. Pressure washers are great for cleaning the exterior of your home, such as the gutters, roof and driveway, but they run the risk of damaging your panels. It's best to find a safer alternative such as a hose or a low-pressure sprayer for cleaning your panels.

Solar detach and reset is a process used to restore the efficiency of solar panel systems. The process involves disconnecting and detaching the solar panels from the mounting brackets and cleaning them ...
