# Photovoltaic panel export SGS certificate

## What is SGS solar testing?

value chain of the photovoltaic industry. The SGS Solar testing team is in constant coordination with all internal business segments within SGS. Acting as an interdisciplinary team, SGS can offer enhanced solar energy services. We test your PV systems and components (PV modules, controllers, inverters, batteries) for efficiency and durability.

### Why should you choose SGS solar?

The SGS solar test facilities are located at the center of such markets, to keep up with solar trends and development, and to offer its knowledge to the global market leaders. In addition to testing modules, SGS Solar experts have also built a Solar Certification Programme and a Solar Performance Scheme.

## What is SGS solar performance scheme?

SGS Solar Performance Scheme includes options for corrosive gases(e.g. NH3,H2S or 4C noxious gas),salt mist,fire,long term durability and potential induced degradation (PID) resistance,among others.

#### What services does SGS offer?

Acting as an interdisciplinary team,SGS can offer enhanced solar energy services. We test your PV systems and components (PV modules,controllers,inverters,batteries) for efficiency and durability. Furthermore,we are well known for our spot check of installations and/or field measurements.

### Who is SGS energy?

SGS Energy is your go-to expert for solar panel installation. With our commitment to quality,tailored solutions,and exceptional customer service,we help you harness the power of the sun efficiently. Unlock the potential of renewable energy and start your journey towards energy independence and lower utility bills today.

#### What can SGS do for You?

SGS offers highly specialized analysis,inspection,testing and certification for solar PV projects,from conception through commissioning. We will enable you to identify risk at an early stage and implement timely,effective countermeasures,so you can reduce costs and achieve optimum power performance.

Solar panel mounting system for pitched metal roof with 20 years warranty: L bracket with rail solution is strong, light and easy to be installed. ... Australia AS/NZS 1170.2, SGS test report, ...

Having an MCS or Flexi-Orb certificate opens doors to export tariff schemes like the Smart Export Guarantee (SEG), which allows you to get paid for sending surplus electricity to the grid. ... The cost of MCS certification ...
