

## Photovoltaic panel pallet packaging skills drawings

What makes a good solar panel packaging design?

A good solar panel packaging design makes it easier to transport solar panels on a pallet, and provide excellent protection to the panels during transport. WINAICO's solar boxes are so tough that one can withstand the weight of a ton, roughly the weight of a pallet full of solar panels, for an hour.

Will pypallet revolutionize the way we ship solar panels?

At least that's our approach. PVpallet is the first solar shipping solution to revolutionize the way solar modules are handled and distributed.

#### Why should you choose pypallet?

PVpallet helps solar companies reduce waste, streamline operations, and save moneythrough reusable packaging and turnkey logistics solutions. Why choose PVpallet?We're focused on making life easier for everyone in the solar supply chain--from manufacturers and distributors to EPCs and solar installers.

#### What services does PVpallet offer?

PVpallet offers turnkey logistics,tracking,cleaning,and refurbishment services. These ensure that your reusable packaging fleet is traceable and in top condition,ready for deployment. PVpallet assists in driving efficiencies and process improvement at the branch and warehouse level,while significantly reducing waste and damage.

#### What is PVpallet?

PVpallet is a reusable packaging and shipping solutionthat assists in driving efficiencies and process improvement at the branch and warehouse leveland significantly reduces waste and damage. -Kevin Leikin,Director of Supply Chain Operations at Sunrun. Our mission is to eliminate waste streams through innovative,reusable packaging and shipping solutions.

#### What is the PVpallet Series X?

The PVpallet Series X allows for easier and safer deployment and decommissioning of solar microgrid systems. It also enables the acceptance and management of solar panel donations in a way that wasn't possible before. The fact that these units can be stacked two-high outside significantly increases storage capacity.

Shipping. 53" Trailer Quantity: 24 erect (12 stacks of 2 pallets), 120 collapsed (12 stacks of 10 pallets) Always follow banding guidelines for loads in transit. When transporting pallets on ...

A typical solar panel packaging consists of a cardboard box with the footprint of a pallet and houses between 26 to 36 panels in the box. A good solar panel packaging design makes it easier to transport solar panels on a
