Did Biden remove the bifacial solar panel exemption?

From pv magazine USA The Biden Administration has released a fact sheet detailing multiple solar panel related policies, including the removal of the bifacial solar panel exemption. This exemption previously allowed certain solar panels to bypass the Trump-era 15% tariff.

Will bifacial solar panels lose exemption?

In addition to bifacial panels losing their exemption, the Biden Administration said it will raise the tariff-rate quota (TRQ) of silicon solar cells by 7.5 GW, if needed.

How do I request a solar panel removal & reinstallation?

Before we can proceed with your R&R, you'll need to confirm that your roof type is eligible for solar panel installation. Submit your R&R request to start the removal and/or reinstallation process from the Tesla app ('App' > 'Energy Site' > 'Support' > 'Get Help' > 'Other' > 'Removal & Reinstallation').

Are bifacial solar panels exempt from tariffs?

Bifacial solar panels, which are predominantly used in commercial, industrial, and utility-scale solar power projects, were previously exempt from tariffs. With the removal of this exemption, the cost of imported bifacial solar panels, typically ranging from \$0.10-0.25 per watt, will increase by \$0.015 to \$0.0375 per watt.

Which bifacial solar panels are excluded from USTR?

Effective June 13, 2019, the USTR excluded bifacial solar panels that absorb light and generate electricity on each side of the panel and that consist of only bifacial solar cells that absorb light and generate electricity on both sides of the cells (bifacial modules).

Will a Trump-era solar tariff be reinstated?

This exemption previously allowed certain solar panels to bypass the Trump-era 15% tariff. The reinstatement of this tariff is expected to increase the cost of commercial, industrial, and utility-scale solar projects by 1% to 2%. White House Fact Sheet
