

Photovoltaic panels installed on Spanish roofs

Can you install solar panels on a Spanish tile roof?

Traditional Spanish tile roofs are made from clay tiles - this can be a pricey material to install solar panels on, given the extra labor required, but it's still very doable for solar installers. Unlike traditional asphalt roofing, clay tiles are usually removed and replaced during a solar installation.

Can solar panels be installed on tile roofs?

Ensure that your roof integrity is preserved by taking an active role in your upcoming solar installation. While installing solar panels on tile roofs is certainly possible, it requires the right technique and knowledge. See how SunPower can protect your roof's integrity while providing the world's best solar.

Can solar panels be installed on a commercial roof?

If you're considering installing a residential or commercial solar panel system, you might wonder if your roof type is appropriate for a solar installation. The good news is that solar panels can be installed on just about any roof type, but the installation process and mounting hardware might vary from material to material.

Can you install solar panels on a flat roof?

Ballast systems are simply a weighted racking setup that holds solar panels in place. If you need to drill into your flat roof to install solar panels, don't worry - your solar installer will ensure that the holes they drill are as small as possible and sealed correctly to avoid roof damage or leaking. Can you install solar panels on wooden roofs?

What is a Spanish tile roof?

Spanish tile refers to the style of the tile, not the material. Spanish tile is usually made of either clay or concrete. Installing a solar PV system on a clay tile roof, generally, is far more expensive than installing on a concrete tile roof.

Which roof is best for solar panels?

No one type of roof is best for solar panels - mounting solutions exist for just about every roof out there. Some roofs will cost more to mount solar panels on. This is due to the different equipment installers need to use. Start comparing customized solar quotes today on the EnergySage Marketplace.
