

How pvbl ranked the top 20 global photovoltaic inverter brands in 2023?

On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Inverter Brands was announced. Preferential policies promoted the inverter market growth in 2023. Most of the major inverter companies won a large amount of orders and expanded their capacity with high shipment volume.

Which companies are in position 17-20 for build solar capacity in the UK?

The first grouping covers companies in positions #17 to #20, shown below. Traditional European EPCs, flexible EPC/sub-contractors and UK-specific developer/EPC companies make up the profiles of companies featuring in positions 17-20 for build solar capacity in the UK.

What is a snapshot of global PV markets?

This 11th edition of the "Snapshot of Global PV Markets" aims at providing preliminary information on how the PV market developed in 2022. The 28th edition of the PVPS complete "Trends in Photovoltaic Applications" report will be published in Q4 2023.

Is the solar PV market growing?

The solar PV market has been growing for the past few years. According to solar PV research company PVinsights, worldwide shipments of solar modules in 2011 was around 25 GW, and the shipment year-over-year growth was around 40%. The top five solar module producers in 2011 were: Suntech, First Solar, Yingli, Trina, and Canadian.

How many nonresidential PV systems do EPC providers install?

In all, the 30 largest EPC providers installed 36 GW of nonresidential PV systems, representing 28% of the global PV market. This is a continued increase from 27% in 2019 and 21% in 2018. Of those 30 EPC providers, 16 executed projects in several markets. The rest concentrated on projects in singular markets, most often in their home markets.

Where are the PV markets now?

The Covid-19 lockdowns brought back a concentrated PV market, in which more than half of the world's non-residential PV additions were located in mainland China or the United States. Adding on Vietnam, where the commercial segment soared in 2020, the top three markets contributed to 61% of added non-residential PV last year.
