

Is Pixii a sustainable company?

Pixii's commitment to sustainability is evident in their contributions to optimizing solar energy use, peak shaving, arbitrage, and participation in flexibility markets. Pixii is headquartered in Norway, with its European sales headquarter in Germany and a global reach through offices and partners in several countries.

What is pixiibox?

Our modular building block called the PixiiBox is the core component in all our systems. PixiiBox opens the door for both energy saving services and income generating services through the concept of value stacking. Our modular approach to battery energy storage - unlocks unprecedented flexibility and scalability

Why should you choose pixiibox?

Our modular approach allows you to scale to your needs, speeding up the transition to green energy. Our modular building block called the PixiiBox is the core component in all our systems. PixiiBox opens the door for both energy saving services and income generating services through the concept of value stacking.

Pixii has entered into a partnership with the TSG Group to support the rapid growth of Pixii's energy solutions within the mobility market. TSG can now offer its customers - including companies and service stations - Pixii's storage solutions aimed at optimizing energy usage and costs, while also contributing to the stability of the electricity network.

Power & Air Solutions, the Deutsche Telekom subsidiary, has completed its first battery energy storage system (BESS), supplied by Pixii. Deutsche Telekom, Munich. The storage system is installed at one of ...

Kenneth Bodahl, Chief Executive Officer of Pixii Meeting India's energy storage needs. India is projected to require between 160 and 182 GWh of energy storage by 2030. Our modular and scalable energy storage systems are designed to meet these evolving needs. Our technology ensures seamless energy transfer between the grid and batteries ...

The Pixii PowerShaper family is a complete energy storage solution for up to 50kW power conversion and 50kWh energy storage capacity with LFP batteries and 40kW and 120kW with NMC batteries. ... the Pixii modular energy storage solution gives you a wide range of functions, allowing you to unleash your growth potential.

Pixii is happy to announce that Rexel will distribute Pixii's products in Sweden, a key market for Pixii's smart energy storage solutions. Together with its installation customers, Rexel will target commercial and ...

Introducing the Pixii PowerShaper XL - the next evolution in energy storage. Designed for the dynamic needs of today's energy market, the PowerShaperXL family (PowerShaper XL, PowerShaper XL Indoor, PowerBase

XL) delivers unparalleled performance and reliability for energy-oriented applications, building on the Pixii modular and scalable ...

Pixii's smart battery energy storage solution in Lierne is more than just an energy remedy; Businesses in the Jule Industrial area now operate unhampered, and the area stands at the cusp of new job opportunities and industrial growth. The Lierne pilot project has exceeded expectations, reducing the cost of network loss for Tensio in the area ...

This marks a significant step in providing efficient energy storage solutions for energy-intensive applications. Pixii PowerBase XL - Preconfigured skid, 540kW up to 1,8MWh A practical solution for energy needs. Part of the PowerShaper XL product family, the PowerBase XL offers 530kW power and 1.8MWh storage capacity.

However, there is a vast amount of energy storage available in telecom networks around the world that can be used to address local grid challenges. ... Pixii's PowerShaper is a modular ...

Pixii and FLEXeCHARGE have formed a strategic alliance to improve EV charging efficiency. This collaboration brings together Pixii's BESS technology and FLEXeCHARGE's grid integration platform, optimizing operations at EV charging stations for Charge Point Operators (CPOs). ... more versatile approach to managing energy storage and ...

The Pixii Home battery energy storage system is quick to install and easy to use, helping you get more out of your solar panels and reduce your dependency on the grid. Pixii Home is a compact, all-in-one solution that combines cost ...

The Pixii battery energy storage system is fully integrated, enabling businesses to get the most out of their new or existing solar panels. It allows for fast charging, and with smart functionality like time shift and peak shaving, businesses can store energy during off-peak hours to reduce costs and manage energy demand.

Pixii is proud to launch Pixii Home, a game-changer in residential energy solutions. Building on our expertise on delivering battery energy storage systems for the industrial sector, we are now bringing our ...

With cutting-edge technology, the Pixii modular energy storage solution gives you a wide range of functions, allowing you to unleash your growth potential. Learn more. ... Pixii AS is committed to protecting and respecting your privacy, and we'll only use your personal information to administer your account and to provide the products and ...

Pixii is happy to announce that Rexel will distribute Pixii's products in Sweden, a key market for Pixii's smart energy storage solutions. Together with its installation customers, Rexel will target commercial and public property owners and industries with Pixii PowerShaper cabinets as well as the residential market with the newly launched ...

Pixii storage Bangladesh

With cutting-edge technology, the Pixii modular energy storage solution gives you a wide range of functions, allowing you to unleash your growth potential. Learn more. One core module, many products. Our modular building block called the PixiiBox is the core component in all our systems. PixiiBox opens the door for both energy saving services ...
