

## Plus power Gibraltar

Where is Gibraltar's new power station located?

The location of the new power station is on the North Mole in Gibraltar Harbor, an advanced arrangement of a gas-fired power station with an LNG hub which will serve as the basis of the island's future power supply.

Why does Gibraltar have a power station?

Through a remarkable feat of engineering, the power station on the North Mole in Gibraltar Harbor allows the quasi-island to continue its proud history of independence and self-sufficiency, regardless of what international politics hold in store.

Does plus power have a Kapolei battery?

Plus Power announced it has begun operating its Kapolei Energy Storage facility on Oahu, Hawaii, the most advanced grid-scale battery energy storage system in the world, helping transition the state's electric power from coal and oil to solar and wind. Plus Power's Kapolei battery is officially online.

Does Gibraltar need a new LNG terminal?

The new LNG terminal in Gibraltar consists of five double-wall stainless steel tanks, each with a capacity of 1,000 square meters. Michael Caetano, Chief Operational Officer of the Gibraltar Electricity Authority (GEA), explains, "Gibraltar needs a new, modern power plant. The existing plant is almost 40 years old."
