

The Manah-1 Solar PV IPP is designed as a greenfield solar PV plant with a maximum power export capacity of 500MWac. The output voltage from the Manah-1 power plant will be exported to the electrical transmission system via the 400 kV Manah switching grid station constructed by Oman Electricity Transmission Company (OETC) near the project site.

Today, we welcome Eng Yahya Al Rawahi as the new Chief Executive Officer at Wadi Noor Solar Power Company," said the JV in a post over the weekend. "Eng Yahya brings a wealth of experience and leadership to our organisati­on, with a proven track record in the solar industry. His arrival marks the beginning of an exciting new chapter for ...

MUSCAT: Newly launched Wadi Noor Solar Power Company (WNSPC), the joint venture undertaking the implementation of a new 500 MW solar PV based Independent Power Project (IPP) at Manah in Al ...

Solar photovoltaic (PV) modules have started arriving at the location of Oman''s latest large-scale renewable energy initiative - a 500 MW capacity project underway in the Wilayat of Manah in Al Dakhiliyah Governorate. Over the coming months, more than 1 million PV modules will be installed as part of the Manah I Solar project, led by Wadi Noor Solar Power ...

An engineer passionate about renewable energy, I have spent the last 7+ years building mega-projects related to solar energies PV & CSP, mainly in construction, mechanical assembly, and commissioning.
The last years were mainly in the construction of the PV solar project in the Middle East and Africa, in the EPC and Developer, including the largest PV project in the ...

Wadi Noor Solar Power Company celebrates a groundbreaking event for the 500 MW Manah 1 Solar PV Power Plant in Oman, a project aligned with Oman's sustainability goals. EDF Renewables and Korea West Power Company are the driving forces behind this significant solar venture, set to power 50,000 homes and reduce CO2 emissions by over ...

More than 1 million PV modules are envisaged for installation over the next several months as part of the Manah I Solar project being developed by Wadi Noor Solar Power Company. "These are bifacial modules capable of generating power from top and bottom faces of the modules," said Eng Yahya al Rawahi, CEO - Wadi Noor Solar Power.

Muscat, January 9, 2024 - The consortium, led by EDF Renewables and Korea Western Power Corporation (KOWEPO), announced today that it has reached financial close on the Manah 1 - a 500-megawatt (MW) solar power plant located in the Sultanate of Oman. Following the bid submission in September 2022, the consortium was awarded and signed [...]

Project Director at 500MW Manah I Solar IPP · Industrious professional with broad experience in delivering successful construction projects, spearheading project full lifecycle, implementing effective site strategies, and streamlining site operations. Contributed to efficient plant operations of global companies NOMAC Oman (Solar Power Plant & Combined Cycle Power Plant). ...
