Aalborg CSP places strong focus on R& D activities and partners with knowledge-based companies and institutions to create leading-edge technologies. As a result, the Aalborg CSP engineering design is centred on a value-adding concept providing solutions that excel in operation, increase plant revenue and contribute to a greener future.

Aalborg CSP A/S is a key developer of direct steam solar tower receivers - tested and proven by a variety of demo and fully operational commercial CSP plants in the world. The unique aspects of the Aalborg CSP solar tower receiver design are rooted in the company's long history with traditional boiler development.

Aalborg CSP is a Danish renewable energy specialist mainly designing solutions based on concentrated solar power (CSP) technology. The company's main office is located in, Aalborg, Denmark, and they have offices in Spain, the United States, Kenya, Australia and Indonesia. [1] Aalborg CSP has participated in projects mainly in Spain, but also in Turkey, Norway and ...

Aalborg CSP offers a wide variety of renewable energy solutions including high- and low temperature energy storage, solar panels, heat pumps, boilers, integrated energy systems as well as customized Power-to-X solutions. Aalborg CSP A/S has realized cost-effective green energy solutions worldwide.

Aalborg CSP A/S is a leading developer and supplier of innovative, renewable technologies with the vision Changing Energy aiming at changing the way energy is produced and stored today. We design and supply

Portugal aalborg csp a s

green solutions and integrated energy systems based on solar power, energy storage within power-to-X (PTX HEAT and PTX SALT), heat ...

Since 1988, Aalborg CSP has utilized its immense expertise within design and delivery of boilers, renewable energy technologies and energy storage. Thereby, we have a deep understanding of individual energy needs, technology- and system integration as well as optimization with key competences such as performance modelling and system design.

Virksomheden Aalborg CSP udspringer af fusionen d. 1/1 2011 mellem BK Aalborg og BK Engineering. Virksomheder, som har rødder tilbage til 80'erne, hvor de udsprang af den store energi-industri, som byen Aalborg er kendt for. Det egentlige afsæt kom fra Aalborg Boilers, der dengang var en del af Lauritsengruppens nu nedlagte værft.Aalborg Boilers, der i dag fungerer ...
