

# Price of rooftop photovoltaic panels for rent

Does a solar lease cover a roof penetration warranty?

As well as covering the costs of the solar panel system, most solar lease suppliers also cover a roof penetration warranty. In some parts of the US, the weather is notoriously unreliable, which means solar panels can generate more energy on some days compared to others.

What's the difference between a solar lease and buying solar panels?

The key differences between a solar lease and purchasing a solar system are around ownership. When you buy panels, you become their owner. With a lease, ownership is retained by the company that installed them. Therefore, you won't get any tax credits. [Considering Solar Panels?](#)

Can you move solar panels if you buy a house?

If you decide to move, your options may include transferring the lease and payments to the buyer of your home, moving the solar panel system to your new home, or paying to remove the solar panels from your roof. By leasing solar panels, you replace your monthly utility bill with a monthly equipment lease payment and pay no cash up front.

Does Project Sunroof have solar data?

We currently have solar data for portions of 50 states and Washington DC. See if we've got you covered. Project Sunroof is a solar calculator from Google that helps you map your roof's solar savings potential. [Learn more](#), get an estimate and connect with providers.

Are solar panels a good investment?

Although the panels are owned by the solar lease company, the homeowner is entitled to all of the electricity that the panels produce. However, the user will also have to pay the company a monthly fee for the solar panels - so the energy savings won't be as rewarding, compared to panels bought outright.

Should I buy a solar panel system outright?

If you have the financial means, buying a solar panel system outright will always be better. Because you'll own the system yourself, you'll get all the benefits that come with solar, such as any tax credits and a boost to your home's value. In short, you'll save more money in the long run when you buy a system outright.
