

Puerto Rico caterpillar ess

What is cat ESS?

The fast response capability of the Cat ESS can enable the higher utilization of renewable sources by limiting the need to oversize for production fluctuations and providing a way to store energy during periods of low demand. Each Cat PGS module is rated from 840 to 1260 kW and provides from 448 to 672 kWh of capacity.

What are cat ESS modules used for?

The flexibility and robustness of Cat ESS modules make them ideal for a broad spectrum of applications, including off-grid mining and oil and gas production facilities, industrial and commercial operations, independent power producers (IPPs) and small utilities, data centers, small municipalities and university campuses.

Does Caterpillar offer energy as a service?

For North American applications, Caterpillar offers Energy as a Service (EaaS) using technologies that automatically dispatch customers' on-site assets to generate and store energy at the optimum times for maximum cost savings.

Is cat a trademark of Caterpillar?

CAT, CATERPILLAR, LET'S DO THE WORK, their respective logos, "Caterpillar Corporate Yellow," the "Power Edge" and Cat "Modern Hex" trade dress, as well as corporate and product identity used herein, are trademarks of Caterpillar and may not be used without permission. Press Inquiries

We offer a standard warranty of 2 years or 200 hours of use per year in the Cat diesel residential and commercial generators after our technicians perform the first "startup" and get your generator running. In addition, we include 2 years of extended coverage limited to 500 hours of use per year for a total of 4 years limited to 2000 hours.
