

Puerto Rico dorad energy

Will Puerto Rico's solar power system rebirth?

The degree of distributed solar and storage expected in Puerto Rico is an amount that has not been attempted elsewhere. The journey of Puerto Rico's power system from widespread wreckage to renewable and resilient rebirth could be an enduring example for others to follow.

Why does Puerto Rico need a better energy system?

Record-setting power outages. High energy costs. These are some of the galvanizing forces that unite the people of Puerto Rico in their commitment to achieve a more resilient, reliable, affordable energy system. Puerto Rico hit a deadly record in 2017, when back-to-back hurricanes destroyed around 80% of the island's electric grid.

How will DOE help Puerto Rico's most vulnerable households?

Through this deployment-focused funding, DOE aims to incentivize the installation of roughly 30,000-40,000 residential solar and battery systems for Puerto Rico's most vulnerable households. DOE will identify and enroll households through the Programa Acceso Solar (Solar Access Program).

What is the Puerto Rico energy resilience fund (PR-ERF)?

On February 21, 2023, the Grid Deployment Office launched the Puerto Rico Energy Resilience Fund (PR-ERF) to support Puerto Rico's grid resilience efforts and achieve the goal for the commonwealth to meet 100% of its electricity needs with renewable energy by 2050.

What happened to Puerto Rico's electric grid in 2017?

Puerto Rico hit a deadly record in 2017, when back-to-back hurricanes destroyed around 80% of the island's electric grid. This was the longest blackout in U.S. history--taking 328 days to get power fully restored--and resulted in more than 3,000 lives lost. In the face of these challenges, the people of Puerto Rico want to rebuild differently.

What is the Puerto Rico PR-ERF?

In December 2022, President Biden signed the FY 2023 Consolidated Appropriations Act into law, which included \$1 billion for the establishment of the PR-ERF to drive key investments in renewable and resilient energy infrastructure in Puerto Rico. On February 21, 2023, the Grid Deployment Office officially launched the fund.
