

Purchase photovoltaic panels at your doorstep

Should you buy solar panels from a local installer?

By easily comparing quotes from local installers, homeowners have access to a tremendous variety of solar panels, inverters, and batteries. While it is possible for homeowners to buy solar panels themselves, either used or directly from the manufacturer, there are a few reasons buy them through an installer.

Should I install solar panels on my roof?

For most residential solar projects, rooftop solar panels are the way to go. Install solar panels on your roof to save on racking costs and conserve valuable space on your property. Shop our selection of DIY roof mount solar panel kits for both grid-tied and off-grid properties. Which inverter should I choose? No need for additional space.

What is the strongest roof mounting system in solar?

Ironridge builds the strongest roof mounting system in solar. Every component has been tested to the limit and proven in extreme environments. Grid tie inverters convert DC to AC power from your solar panels and provide net metering capability. View and analyze your solar energy production in real-time.

Can you buy solar panels from a wholesale reseller?

Wholesale resellers sell equipment online to consumers looking to go solar. While labeled as "wholesale," these items will still typically include a markup so that the company selling the product will make a profit. It's currently not possible for consumers to purchase wholesale solar panels directly from panel manufacturers.
