You can contact the company by email at [sales@q-cells.com](mailto:sales@q-cells.com). Categories: Management consultancy activities. ISIC Codes: 7020. Hanwha Q CELLS Malaysia Sdn Bhd Cyberjaya postal code 63000. See 4 social pages including Facebook and Youtube,Hours,Phone,Email,Website and more for this business. 3.5 Cybo Score. Review on Cybo.

When will Hanwha Q Cells start production at Cyberjaya?

The construction of the module production facility at the Cyberjaya site will start in early 2015. Hanwha Q CELLS will start to move in the production equipment in parallel. The new production lines are planned to be ready for a first test production in Q3 2015 and expected to reach full utilization by early 2016.

What does qcells do?

Qcells develops and produces monocrystalline silicon photovoltaic cells and solar panels. It produces and installs PV systems for commercial, industrial, and residential applications and provides EPC services for large-scale solar power plants. The company's engineering offices are located at the original headquarters in Thalheim, Germany.

Who owns qcells?

Qcells was purchased out of bankruptcy in August 2012 by the Hanwha Group, a South Korean business conglomerate. Qcells now operates as a subsidiary of Hanwha Solutions, the group's energy and petrochemical company. Qcells has manufacturing facilities in the United States, Malaysia, and South Korea.

The heart of a PV system is the solar cell. The incident sunlight, i.e. electromagnetic radiation, on the solar cell initiates a physical response whereby the solar cells generate a direct current. In general, a solar module is made up of 60 or 72 solar cells that are electrically connected and safely protected by a tough glass panel and frame.

In addition to the new line in Malaysia, Hanwha Q CELLS has launched "Manufacturing Excellence Initiatives" at both of the company's production sites in Cyberjaya (Malaysia) and Thalheim (Germany). Starting from 1.1 GW of capacity in Malaysia, the set of measures to reduce cycle times and increase throughput in all production lines is expected ...
