

Qcell company Wallis and Futuna

What does qcells do?

Qcells develops and produces monocrystalline silicon photovoltaic cells and solar panels. It produces and installs PV systems for commercial, industrial, and residential applications and provides EPC services for large-scale solar power plants. The company's engineering offices are located at the original headquarters in Thalheim, Germany.

Where are qcells solar cells made?

Qcells has manufacturing facilities in the United States, Malaysia, and South Korea. The company was the sixth-largest producer of solar cells in 2019, with shipments totaling 7.3 gigawatts.

Who owns qcells?

Qcells was purchased out of bankruptcy in August 2012 by the Hanwha Group, a South Korean business conglomerate. Qcells now operates as a subsidiary of Hanwha Solutions, the group's energy and petrochemical company. Qcells has manufacturing facilities in the United States, Malaysia, and South Korea.

Will Q Cells buy Geli?

Q CELLS already sells total renewable energy solutions to residential customers in Germany, while buying GELI's expertise and its end-to-end software platform for the design and installation of energy storage systems could allow it to take on opportunities for US businesses.

What happened to Q Cells?

The Q CELLS acquisition, announced in August and closed in December 2020, follows a continuing trend of renewable energy and energy storage companies boosting their digital capabilities through mergers and acquisitions.

Where are Hanwha qcells cells made?

In July 2024, it was reported that Hanwha Qcells' factory in Dalton, Georgia, was importing cells made with Chinese wafers from TCL Zhonghuan Renewable Energy Technology Co. and Gokin Solar Co., wafer suppliers who source Xinjiang, China polysilicon from Daqo and GCL, both of which are on the UFLPA Entity List.

Qcells' parent company, Hanwha Solutions, has said that it intends to break ground on the manufacturing plant in Q1 2023 and reach 8.4GW of module production in Georgia by 2024.

The population of Wallis and Futuna stood at 11.5 thousand in January 2024.
