Cairo, 2 November 2020: Telecom Egypt and St Helena Government (SHG) have signed an agreement to connect the Island to Telecom Egypt's subsea system over the Equiano submarine cable system. Telecom Egypt will be the first to provide St Helena with a fibre optic connection to the rest of the world, which is a crucial step towards the Island's economic growth.

The St. Helena project started in or around 2000 when three Lagerwey 18/80 turbines were installed on the island. In 2009 WES increased the number of turbines to a total of six by adding three WES80 80kW turbines. In 2014 another six turbines doubled the wind capacity on the island of St. Helena to twelve wind turbines.

As some of you may know, Saint Helena is a British Overseas Territory in the southern Atlantic, a remote island best known for hosting Napoleon in exile. It has a total population of around 4,200 people and one weekly flight off the island. That said, Saint Helena appears to the untrained eye to be a relatively "easy" place to immigrate to.

Members of the public are advised that Generators No. 3 and No. 5 continue to operate at the Power Station. ... There are two possible scenarios for how load shedding might apply on St Helena. In the first scenario, if a fault develops on Generator No. 5 but the larger Generator No. 3 remains operational, there would be sufficient generation ...
