

Radio and Television Network cannot open WeChat

Does WeChat work on other networks?

If WeChat works okay on other networks, check your network settings on your router to make sure that app is not blocked. See our recommended router settings here: Recommended settings for Wi-Fi routers and access points. If the issue is not with your router settings, you may have an issue with your WeChat app itself. Check for an app update.

How do I fix WeChat not working?

Go to Settings > Cellular and make sure that WeChat is enabled to use cellular data there. If the issue continues after that, go through the steps in the following link. They may resolve the issue for you as well: I hope this helps. A forum where Apple customers help each other with their products. Get started with your Apple ID.

Why is my WeChat app not working?

If the issue is not with your router settings, you may have an issue with your WeChat app itself. Check for an app update. If the issue continues, contact WeChat support following these steps: How to contact an app developer. We hope this helps! Hi there Clairechina, Thanks for using Apple Support Communities.

Does WeChat use cellular data?

WeChat uses a local network back up or restore your chat history. No cellular data will be used. Check your network connection: Make sure your phone and computer are connected to the same network (router, personal hotspot or wireless card) to transfer the data. Only local networks are used during this process, so no cellular data will be used.

How to fix WeChat not working on iPad Pro?

(1) Off load the WeChat app from setting->iPhone storage->WeChat. Not the custom content. It didn't work when I reinstall the app in the same window. (2) Go to App Store and download WeChat app. (3) Login to your account. It worked for me. iPad Pro WeChat not working after iOS 16 update fix and this work around is off load the WeChat from setting.

Why does WeChat report a network unavailable message?

This was most evident with Wechat reporting a Network Unavailable message. The issue, in my case, was related to my VPN Apps trying to automatically connect to the Network and failing to do so. This kept switching the VPN toggle on and off.
