

Ranking of photovoltaic companies on the New Third Board

What do sinovoltaics rankings say about the quality of PV equipment?

The Sinovoltaics analysts note that while the rankings do not say anything about the actual quality of PV equipment, buyers and other industry stakeholders, such as financial institutions, can use the ranking reports as part of the due diligence process or to help identify financially stable partners.

Who are the top solar panel producers?

Sinovoltaics has analyzed listed solar panel producers over the past three years using a balance sheet-based model and publicly available financial information to track financial strength. The top-five module makers of the new ranking are Tainergy, First Solar, Eterbright, Mission Solar, and Era Solar.

Does sinovoltaics have a z score?

Did you know? Sinovoltaics has been publishing its PV Module Manufacturer Ranking Reports based on the Altman Z score formula since early 2016 and is the first and only independent source for PV Module, Inverter, and Energy Storage Manufacturer Ranking Reports based on their financial strength.

Who are the top 20 solar module manufacturers?

The module shipments of the top 20 manufacturers increased by more than 50% year-on-year, of which the shipments of the top four accounted for 59.95% of the total shipments of the top 20. The major players maintained their leading positions throughout the list. The top four were LONGi, Jinko, Trina and JA Solar, the same order as previous year.

How many energy storage and solar inverter manufacturers are there?

In these reports, we present the Altman Z Scores of over 40 energy storage manufacturers, 30 solar inverter manufacturers, and 70 PV module manufacturers. These reports allow you to compare manufacturers and serve as a crucial indicator when selecting your PV module, energy storage, or inverter manufacturer.

How many PV module manufacturers are there in the world?

Sinovoltaics, a Hong Kong-based technical compliance and quality assurance service firm, has released a PV Module Manufacturers Ranking covering 52 panel suppliers spread across the world. The company said the results are calculated from June 2020 until December 2023 to provide insight into the stability of the scores over time.

It is expected that China's new solar power installations will reach 150-160 GW (AC) this year, and the global new solar power installations are expected to reach 450 GW (DC), setting a new record. After two weeks of ...
