

Recom power Albania

2019 übernahm RECOM den italienischen Stromversorgungsspezialisten "Power Control Systems Srl" (PCS). PCS wurde 1980 gegründet. Das Unternehmen befindet sich in einer modernen 4.500m² großen R& D- und Produktionsstätte in San Vendemiano im Norden Italiens. PCS konzentriert sich auf äußerst zuverlässige Qualitätsprodukte und ist ein Experte auf dem ...

From this centralized office, the RECOM Power, Inc. team provides sales and technical support services for all North and South American markets. We serve large original equipment manufacturers (OEMs) and smaller, lower volume users through our network of sales representative firms and distributors in the Americas.

RECOM Power RPX-0.5Q and RPX-1.5Q Series DC/DC Buck Converter | Supplyframe: Video Oct 14, 2022 AEC-Q100 Compliant Power Converters for Automotive Applications: Video Jun 17, 2022 Switching Regulators. Can I get a ...

En todas sus operaciones, la empresa mantiene las "mejores pr#225;cticas en el lugar de trabajo" y respeta las normas #233;ticas m#225;s estrictas. RECOM es un empleador que ofrece igualdad de oportunidades y que se enorgullece de su diversidad y ha desarrollado su plantilla bas#225;ndose #250;nicamente en las habilidades y la experiencia. ACERCA DEL EMPLEO

Welcome to the RECOM-Extranet (staging)! The use of RECOM-Extranet (staging) is only possible with a special legitimation. Please, complete this form and submit it to the Extranet-Administration. The log-in process could take up to 2 days due to individually processing. Thank you very much for your kind understanding.

All DC/DC converters can withstand occasional short-duration over-voltage transients (100ms), but repeated over-voltage conditions can lead to failure.Unregulated DC/DC converters can cope with longer input over-voltage conditions as long as the supply voltage does not exceed the component ratings.
