Does reflect Orbital sell sunlight after dark?

However, these traits are at the core of Reflect Orbital, an energy startup with a mission so audacious it borders on science fiction: selling sunlight after dark.

Could reflect Orbital Be the future?

This is the future that Reflect Orbital imagines is possible. The startup is developing satellites that would deploy large mirrors to precisely reflect sunlight onto specific points on the ground.

Could 'reflect orbital' be a space venture?

The potential applications range from lighting up entire cities to providing solar farms with much-needed energy during the night. The journey to secure funding for such an ambitious venture wasn't easy. Reflect Orbital caught the eye of Sequoia Capital, becoming the firm's first space investment since SpaceX in 2020.

How many investors does reflect Orbital have?

Reflect Orbital has 6 investors. Starship Ventures invested in Reflect Orbital's Seed VC - II funding round. Blue Marble Communications specializes in advanced communication technologies for space applications.

Is 'reflect orbital' a space investment?

Reflect Orbital caught the eye of Sequoia Capital, becoming the firm's first space investment since SpaceX in 2020. "It took us a while to close the deal," Semmelhack admits. Investors struggled to grasp the concept, often questioning the feasibility of reflecting sunlight from space on such a scale.

According to Reflect's two co-founders, CEO Ben Nowack and CTO Tristan Semmelhack, this extra sunlight could increase the amount of solar power delivered to the electricity grid.
