

Rooftop solar power direct sales platform

Does Project Sunroof have solar data?

We currently have solar data for portions of 50 states and Washington DC. See if we've got you covered. Project Sunroof is a solar calculator from Google that helps you map your roof's solar savings potential. Learn more, get an estimate and connect with providers.

Why do companies use SolarEdge on their roofs?

And with our patented Power Optimizers attached to every module on the roof, businesses can see 10% more power over the system's lifetime. There's a reason why over 50% of Fortune 100 companies have SolarEdge on their rooftops. Ensuring peace of mind is no problem with advanced safety features, including:

How to create a high-converting solar sales pitch?

First things first, you have to understand your audience to create a high-converting solar sales pitch. Then build an ideal customer profile (ICP) to match. In the solar industry, ICPs are normally: Homeowners: Since renters don't own the homes they live in, they won't want to talk to you about solar. Focus your energy on homeowners.

How do you sell solar panels without financing?

Focus your energy on homeowners. Financially Responsible: Few people can purchase solar panels without financing. Because of this, a prospect's credit score is vital to the sales process. Identify financially responsible prospects to sell to. Geographically Relevant: Solar isn't a viable option for everyone.

Will your door to door solar sales pitch fail?

If so, your door to door solar sales pitch will fail. Always remember... You don't sell solar panels, you sell energy-related solutions. This is important because your prospects don't actually care about the panels.

Is solar a viable option?

Geographically Relevant: Solar isn't a viable option for everyone. Ensure your prospect's homes get enough sun, face the right direction, etc. The above information will get you started. But you really need to study your specific market to learn about your potential customers.
