

# Russia building battery

Where is Russia's new lithium-ion battery manufacturing facility located?

Russian state-owned Rosatom State Nuclear Energy (Rosatom) has announced it will build its 3 GWh lithium-ion battery manufacturing facility in Kaliningrad, in Russia's province of the same name, sandwiched between Poland and Lithuania along the Baltic coast.

Where is Russia's battery cell factory located?

Russia's nuclear corporation Rosatom announces the location for its battery cell factory announced in March. It will be built in the western Russian exclave of Kaliningrad and is to produce battery cells for electric vehicles and energy storage systems from 2026.

Will Russia produce a prototype battery by the middle of the year?

The move follows Russia's claim last month that it will have produced prototype batteries by the middle of the year.

When will Russia start producing lithium ion cells?

The signed agreement also includes the construction of a plant for the production of lithium-ion cells for electric vehicles and energy storage systems in Russia with a production capacity of at least 2 GWh by 2030. According to Rosatom, the start of the first production stage is planned for 2025.

Will Russia build a Gigafactory in 2026?

It will be built in the western Russian exclave of Kaliningrad and is to produce battery cells for electric vehicles and energy storage systems from 2026. The initial volume of the Russian Gigafactory is now given by Rosatom as at least 3 GWh - one gigawatt hour more than previously announced.

What will Russia's new lithium-ion plant do?

The plant will focus on the production of lithium-ion cells and energy storage systems and will have a total annual battery manufacturing capacity of at least 3 GWh. "The signals we receive from the Russian market indicate that the production volumes we planned a year ago may be insufficient.

The move follows Russia's claim last month that it will have produced prototype batteries by the middle of the year. Now Renera, a subsidiary of state-owned nuclear energy giant Rosatom, says it plans to manufacture ...
