When will the solar PV market grow in Russia?

We will send a sample as soon as possible. The Photovoltaic (Solar PV) Market in Russia is expected to grow in the period 2021 - 2030. Government plans of Russia include the development of the solar PV sector.

Is solar energy a good investment in Russia?

Even though demand for solar energy in Russia is low, the Moscow-based company, Hevel, is producing solar modules with an energy conversion efficiency of 22 percent, which is the world's highest. In addition to Hevel, only two other companies in the world produce solar equipment with similar efficiency: Panasonic (Japan), and Sun Power (U.S.).

Is solar energy on the verge of a major expansion in Russia?

Vadim Braidov /TASS Solar energy in Russia might be on the verge of a major expansion, thanks to a government support program for renewable energy sources, industry experts told The Moscow Times. Russia, the world's fourth-largest emitter of greenhouse gases, has historically relied on its vast oil and gas reserves to bolster its economy.

How much solar energy does Russia produce?

Russia's share of solar energy production is a paltry 0.03 percent of the country's total, and to meet its electricity needs the country relies heavily on traditional energy sources with high conversion efficiency, such as gas, oil, hydro and nuclear. Nevertheless, in the past three years Russia has been rapidly developing solar energy.

What is Russia's largest solar energy company?

With a capacity of 20 MW, it will power about 4,000 homes and will be launched in September. The Hevel Group ("hevel" means "sun" in the Chuvash language) is Russia's largest solar energy company, and was founded in 2009 by Renova and Rosnano, which have a 51-percent and 49-percent stake, respectively.

Does Russia have a solar power plant?

Nevertheless, in the past three years Russia has been rapidly developing solar energy. Kosh-Agachskaya solar power plant in the Republic of Altai was opened in 2014. In 2014, Russia opened its first solar power plant, and the country has 12 today. Soon the 13th will be launched.

Hevel Group is also the largest investor in solar parks in Russia and CIS - with 1.6 GW project pipeline in different regions. Hevel Group proved to be one of the world's leading industrial producers of HJT PV cells and modules, with our products being shipped to various regions, including the EU countries, India, Japan and others.
