Waste Management Services - Information Leaflet ENRD became responsible for the Solid Waste Management Strategy and all regular operations on 1 April ...

The newly installed battery system has a capacity of 450kW/1.1MWh with the council targeting 5MW of similar assets. Community batteries are BESS resources connected to the electricity network at distribution level, and the idea is that it helps communities share the benefits of locally deployed rooftop solar PV while easing congestion on their local grid.

The financial aspect of community batteries. Although the financial aspect and benefits of installing community batteries could bring, especially when pooling together rooftop solar PV resources in the local vicinity, Matthew Charles-Jones, president of Totally Renewable Yackandandah, a volunteer-run renewable energy group based in Victoria ...

The Chief Minister has announced that SHG and the UK government (UKG) have reached a cooperation arrangement in relation to future migrants arriving on the British Indian Ocean Territory (BIOT)/Chagos Archipelago from 16 October 2024. It was for the St Helena ministerial team alone to decide if they wished to offer the United Kingdom this [...]
