Will St Helena have 100% renewable electricity by 2027?

The Government of St Helena announces it has chosen a supplier, PASH Global, to provide a Renewable Energy solution for St Helena, aiming for 100% renewable electricity by 2027. It is announced that Connect Saint Helena and PASH Global have signed an agreement to potentially meet 100% of the island's energy needs from renewable sources.

Does St Helena have double-glazing?

You can see the 2017 figures (right). St Helena households and businesses have also adopted a wide range of energy saving measures, driven perhaps by the very high cost of electricity on the island (in 2014 it was up to £0.42p per kWh, depending on consumption). Double-glazing is, however, uncommon on St Helena - it is rarely cold.

What is the solar farm doing on Deadwood Plain?

The solar farm was brought on line and now complements the wind turbines on Deadwood Plain. 33.4% last month equates to a saving of 73,000 litres of diesel fuel which is enough to fill the fuel tanks of half the island's registered vehicles!

SHG and Connect Saint Helena Ltd are today pleased to announce that PASH, based in the UK, has been chosen as the preferred bidder to provide their renewable energy solution to St Helena. Subject to concluding negotiations, it is envisaged that a contract will be signed soon. The project will result in the majority of [...]
