

Turbines at the plant in the US Virgin Islands where W&#228;rtil&#228;; installed new generators and BESS equipment. Image: WAPA / Wartsila / Office of Disaster Recovery. A double-header of news from Central America and the Caribbean, with Belize seeking consultants for a 40MW storage project and W&#228;rtil&#228;; commissioning a hybrid project in the US ...

Software & Optimisation. Materials & Production. Features. Resources. Interviews. Guest blog. Editor's blog. ... BESS developer-operator Aquila Clean Energy has started building a 50MW/100MWh project in Germany, its first major one in the country. ... Str&#252;bbel is in the onshore wind area between Hamburg and St. Peter-Ording, which Aquila ...

LC Energy's pipeline includes four, 4-hour medium voltage BESS projects in the Netherlands, all of which are set to come online next year. Energy-Storage.news spoke with the firm's management team in September about a 500MW/2,000MWh permitted project, the largest to reach that stage in the country, though that is not coming online until 2026. ...

The integration of Battery Energy Storage Systems (BESS) improves system reliability and performance, offers renewable smoothing, and in deregulated markets, increases profit margins of renewable farm owners and enables ...

The BESS, set to be constructed alongside a data centre in Splott, Cardiff, is the largest BESS to secure planning permission in the UK to date. The 828 battery units to be installed onsite form part of the Latos Data Centre's larger sustainability plans; the data centre aims to achieve carbon neutrality through onsite power generation and ...

Enervest CEO Ross Warby stated: "Energy Vault's leading integrated hardware and software solution coupled with their deep technology and system design expertise makes Energy Vault an ideal partner for the Stony Creek BESS. ... The BESS will be constructed using Energy Vault's X-Vault integration platform and B-VAULT product, certified by ...

TagEnergy has a standing relationship with Tesla, with the technology giant providing its Megapack lithium-ion batteries and Autobidder AI software for the 49MW/98MWh Jamesfield BESS in Scotland. The project is co-owned by TagEnergy and developer Harmony Energy via a joint venture. To read the full story, visit Energy-Storage.news.

Renewable energy portfolio management software company EnSights has launched a tool for calculating the optimal sizing of battery energy storage system (BESS) projects. Getting the sizing right for battery storage ...

Such BESS projects are becoming more commonplace following smaller pilots around the world, with large-scale projects under construction in Australia, Scotland and Finland, to name a few. The Dutch energy storage market has picked up in the past 12 months after years of being decried as a laggard compared to its neighbours Belgium and Germany.

Inverter and BESS company Sungrow has signed a deal with developer Nofar Energy for a 230MWh project in Saxony-Anhalt, Germany. China-headquartered Sungrow will provide its PowerTitan2.0 battery energy storage system (BESS) technology, which integrates 2.5MW power conversion system (PCS) and 5MWh of energy storage per unit, for the the ...

Energy-Storage.news is proud to present our sponsored webinar with consultancy Clean Energy Associates (CEA), in which executives discussed how to approach the constantly evolving question of BESS procurement.. The dynamics which determine the pricing, competition and supply chain for batteries and battery energy storage system (BESS) ...

Renewable developer and IPP TagEnergy will soon start construction on the largest BESS project in France, a 240MW/480MWh project with Tesla providing BESS and EPC services. Queensland's 48GWh Borumba PHES site set for crunch talks amid cost increase to ...

A render of one of two BESS projects that Evecon and Corsica Sole will build in Estonia. Image: Evecon. Bids have been received by Latvia's grid operator AST for an 80MW/160MWh BESS project while developers Corsica Sole and Everon will build a 200MW system in Estonia, as the Baltic region prepares to decouple from Russia's electricity system in ...

Renewable energy portfolio management software company EnSights has launched a tool for calculating the optimal sizing of battery energy storage system (BESS) projects. Getting the sizing right for battery storage assets is central to the business case for most projects; if a system is too small, its operators won't be able to fully capture ...

The project profiled in this case study builds on the previous one and demonstrates that a PXiSE Microgrid Controller, when coupled with a battery energy storage system (BESS), can enable the microgrid's batteries to ...

The BESS project from developer Electric Spot has been waved through the EIA process by the National Agency for Environmental Protection (Agen?ia Na?ional? pentru Protec?ia Mediului, or ANPM), part of the Ministry of the Environment, in a decision dated 9 July, 2024.
