

Saint Martin green lantern solar

Who is Green Lantern solar?

Founded in 2011 on the principles of teamwork and trust, Green Lantern Solar is committed to delivering a clean energy future. We provide sustainable energy access to businesses, educational institutions, towns and municipalities throughout the U.S.

Will St Martin be the first parish to commit to solar power?

In a joint statement, they said: "We felt it was our responsibility to reduce our carbon footprint and this is a great day for St Martin to be the first parish to commit to solar power and to do our little bit for the environment." It comes as works are ongoing to refurbish the hall, meeting room, library and offices.

Why have solar panels been installed in St Martin's Parish Hall?

St Martin's Parish Hall and its adjoining outside toilet block have had solar panels installed as part of a push to move away from using electricity from the grid, officials said. The installation formed part of ongoing refurbishment projects across the parish and was the first of its kind on the island, they added.

Why should you choose Green Lantern solar?

At Green Lantern Solar, we help communities preserve their land while generating sustainable energy locally. We ensure our solar installations are set back from roads, minimize construction waste and help farmers generate additional revenue to keep their farms in operation.

Why did St Martin get a new tax meter?

The installation formed part of ongoing refurbishment projects across the parish and was the first of its kind on the island, they added. St Martin constables said the change would also work towards "reducing rates" for taxpayers.
