remote areas in Samoa. The energy sector in Samoa is currently undergoing a significant transformation as the country is transitioning towards sustainable, affordable, and reliable energy supply. The SESP 2017 - 2022 comprised five (5) sub-sectors, (i) Renewable Energy, (ii) Electricity, (iii) Transport, (iv) Petroleum and (v) Institutio

Why is energy development important in Samoa?

able energy development. By optimizing energy production and consumption, island countries like Samoa can not only improve their energy security but also reduce their carbon footprint and protect the planet's natural resource for future generations. Samoa faces unique energy challenges, including vulnerabilities that demand a strategic appro

What are the energy supply and use components for Samoa in 2020?

Table 1 is a summary of the Energy Supply and Use components for Samoa in 2020. Samoa's energy supply totaled approximately 5,282 TJ where imported energy products accounted for an estimated 69.8 % (3,689 TJ) of total supply while natural inputs from the environment accounted for the remaining 30.2 % (1,593 TJ). Source: SBS, 2022.

GREEN LINE ENERGY SA is part of Agrogroup Bozatzidis-Mitsiolidis, a leading company in the field of agricultural machinery and spare parts since 1984. Green Line Energy was established in 2011 with the aim of trading in, building and operating RES systems and biogas plants. Since 2011 it has built 430 PV parks,

mainly for farmers and other ...

According to EPC's Annual Report 2019-2020, 45 per cent of electricity was generated from renewable energy. Most of the electricity in Samoa, particularly for the main grid, is generated from diesel, hydro-power and solar power generation stations and a very small amount of electricity is produced from wind energy and biomass resources.

Ladies and gentlemen, BAT Samoa's Green Energy Project will provide it with 100% of its electricity needs. BAT Samoa is the first in class in the private sector to go fully green (fully renewable energy) and I have been told that they are the first within BAT's South Pacific end markets to go fully on renewable energy.

3 | P a g e PREFACE The Samoa Energy Review 2017-2019 is produced by the EPCMD1, under the Ministry of Finance to provide the Government of Samoa, business community and the general public with a better understanding of energy data trends, milestones, and relationships. Each year, the Energy review includes a new set of annual data (in this case, the years 2017, ...
